School of Computer Science Engineering and Technology

Course- BCA   Type- Specialization (Full Stack)
Course Code- BCA307L   Course Name- Full Stack Development

Year- 2022-23   Semester- Odd
Date-17-Aug-2022   Batch- (5th semester) Full Stack
   specialization

Lab Assignment (Week 1, Assignment 2)

1. **Create a HTML5 document using VSCode designer and place it in htdocs folder of xampp and see if it opens using localhost url on your browser.**
2. **Add 2 textboxes and 3 radio boxes and a submit button using VS Code.**
3. **On submit validate the form if 2nd text box with label Name has been entered or not.**
4. **If it is blank give an error message and return as shown in screen below:**

5. **On choosing any radio button show the message in 1st text box as shown in screenshot below. Use javascript and DOM manipulation for it.**

Aim: In this lab students will learn to design HTML5 web pages using VS Code. They will also learn javascript functions to manipulate control's values using DOM.
